# 1.- Introduction

We have been trying for 5 years to change the cultural image of our city and 133,558 people have visited our installations and lived the activities of our museum.

We are still ignored by many estates, but we are still fighting to be one of the most important museums in Zaragoza. According to TripAdvisor we are the Museum nº1 of Aragón; nº3 in "things to do in Zaragoza"; .nº 9 on things to do in Aragón; nº 20 in specialized museums in Spain. Nobody can deny that we are still a unique museum, and a reference in the world.

This year we have finally appeared in the annual budgets of the D.G.A. with a participation in 2018 of € 10,000.

Zaragoza City Council, which houses us in its facilities of the History Center, continues to let us the second floor for our activity, which gives life to the Center, since our exhibitions attract the largest number of visitors, both from Zaragoza and foreigners.

An objective that we had for this year was to be declared of public interest, it was not achieved because the Ministry of the Interior refused to consider that we were not a solvent company, because we were in a situation of "technical bankruptcy" and we were doomed to closure. But we achieved a second and important goal: to undertake a Crowdfunding that will save us the programming of this coming year. Help of more than 10,000€ was obtained thanks to the participation of more than 150 people who helped in this project.

With the help of our friends, this year we have achieved for the first time financially equating expenses with income, With little more help ... we can not even imagine it.

The EMOZ team continues with the desire to work and this year has scheduled four great exhibitions.

We have started the season with the great folding artist in the wet sculptural folding technique, the German Alexander Kurth, from December to March.

We will continue with one of the most attractive groups of folders in the world, the VOG (Vietnam Origami Group). From March to June, they will fill all the rooms

of the museum with their incredible figures. During the days of the installation, members of this group will participate in the exhibition and workshops will be held for people who want to participate and increase their skill in folding.

From June to September, the Hungarian, Jozsef Zsebe, will come to our museum to show the great mastery in the art of folding paper, and will surprise us with his animals folded with papers of very heavy weight and even in metal.

To finish this year, from September to December, an architect, designer of the most incredible and surrealist models that can exist in our world of paper, Joao Charrua, will delight us with his models.

And a last minute advance from December to March of 2020, another group from Israel friends, Saadya, Illan and Ynon, with their particular visions of seeing origami, will fascinate us with their models. In this case, the exhibition will also occupy all the rooms of the museum.

This year 2019, under the presidency of honor of their Majesties the King and Queen of Spain, will take place the celebrations of the 75th anniversary of the birth of the Grupo Zaragozano de Papiroflexia, as well as the V anniversary of the opening of the EMOZ. Throughout this year and into early 2020, will be held various events to recognize our group (the oldest in the world) as one of the most active in fighting the diffusion of origami associations, through our web and our social networks will keep you informed of all the activities we have proposed. The first activity was the "Origami" Exhibition at the Museo Cerralbo in Madrid, which has received a large quantity of visitors.

The hard truth is that we still need your help. The visiting public has supported us with more than 10,000 signatures. Undoubtedly, this support is enough to try and make us heard in the cultural scene, and not only in the area of our region. EMOZ and its adept public already form a unit that is ready for everything.

From these pages we want to thank the Aragonese Association of Art Critics for the extraordinary prize that, in this month of January, has given us for the value of our exhibitions and for the great work of the museum.

Finally, after five years of fight, the Origami Museum begins to occupy the cultural space it deserves.

We hope that together we will continue to make our Museum possible, a space where we all have a place, a family museum where the most important thing is respect for our visitors and the quality of our exhibitions.

# 6.- Conclusions

At last a year that we can be happy, one more year of existence of the museum and among all we have been able that at least for another year our cultural project still stands and walk with firmer steps.

We will continue calling at the doors of the institutions, to know that we are still in Zaragoza, the city of Origami, also to companies, we want everyone to contribute their granite so that this Museum becomes part of cultural life and becomes essential and necessary your visit.

We tell to the Zaragoza people that our cultural offer is diverse, and that every three months they can discover a new EMOZ. To those who visit our city, that our museum is different to everything previously seen, and that they should visit it, we are sure that we will not disappoint them.

To thank the Aragonese Association of Art Critics for valuing the great museum activity that we have been carrying out in these 5 years of activity.

Congratulate the Grupo Zaragozano de Papiroflexia for its 75th anniversary, which makes it the oldest origami association in the world. Congratulations!!!

Thank you all for being EMOZ
